

PCORE ELECTRIC COMPANY, INC. ANNOUNCES

THE 2008 ANNUAL BUSHING ENGINEERING SEMINAR JUNE 17th - 19th

PCORE Electric Company, Inc. will be conducting their annual Bushing Engineering Seminar at *The Lodge at Woodcliff* in Rochester, New York from Tuesday June 17th to Thursday June 19th 2008. The seminar will be filled with information that will benefit Engineers, Technicians and others in both the Electric Utility industry & their equipment suppliers. **PCORE** will cover seminar fees and all meals for attendees. Attendees will be responsible for transportation to and from the seminar and room expenses (Special Seminar Rate: \$130.00 per night – single or double).

The seminar will commence with a Welcome Reception on Tuesday evening and end after a Noon lunch on Thursday. The seminar will cover bushing application, design, engineering, testing and frequently asked questions from the field. Once again, a factory tour of the **PCORE** bushing facility will be an exciting part of the seminar. The forum is an open one, which offers a unique opportunity for one-on-one interaction with **PCORE** bushing personnel. *Attire for this seminar is business casual.*

PCORE has a content-rich, interesting program planned and we look forward to hosting this event for your benefit. Presentations are updated annually to reflect feedback received during previous Seminars.

Seminar registration is open on a first-come, first-serve basis. Because the space available is limited, we request that no more than four (4) representatives from a single company plan on attending. The registration form should be faxed (585-768-1213) or e-mailed (mbeil@pcoreelectric.com) to *Marlene Beil, Executive Administrative Assistant*, as soon as possible. If you have any questions please contact Marlene via email or call her at (585) 768-1214.

REGISTRATION DEADLINE - Thursday May 15, 2008
